भूमिका

आजचे युग हे संगणक युग म्हणून ओळखले जाते. आजच्या या युगात स्पर्धेत टिकावयाचे असेल तर गुणवत्तापूर्ण शिक्षणाची नितांत आवश्यकता आहे. त्यासाठी शाळा,महाविद्यालय आणि विद्यापीठीय अभ्यासक्रम हे सक्षम व सर्वांग परिपूर्ण असले पाहिजे. विद्यार्थ्यांच्या अंगभूत कलागुणाबरोबरच त्याच्यातील क्रियाशील सर्जकतेला चालना देण्यासाठी तसेच तो अधिकाधिक आत्मनिर्भर होऊन त्याला स्वत:च्या पायावर भक्कमपणे उभे राहता यावे. तो अधिकाधिक स्वंयपूर्ण व्हावा अशा अभ्यासक्रमाची आज गरज आहे. बदलत्या समाज जीवनाचे प्रतिबिंब नव्या अभ्यासक्रमातून प्रतीबिंबीत झाले पाहिजे. याच हेतूने आमच्या अंकुशराव टोपे महाविद्यालय, जालना येथील मराठी विभागातर्फे 'उपयोजित मराठी भाषिक लेखन कौशल्ये' प्रमाणपत्र अभ्यासक्रम हा विद्यार्थ्यांसाठी राबविला जातो. हा आमचा अल्पसा प्रयत्न आहे. संत तुकारामांनी म्हटलेलेच आहे की, "असाध्य ते साध्य करिती सायास कारण अभ्यास तुका म्हणे" म्हणजेच जी असाध्य गोष्ट आहे ती अभ्यासाने सहजपणे साध्य करता येते. यावर संत तुकारामांचा विश्वास होता.

आमच्या या उपक्रमाला महाविद्यालयाचे प्राचार्य डॉ.बी.आर.गायकवाड यांची प्रेरणा व मार्गदर्शन आहे. याचा मराठी विभागाला सार्थ अभिमान आहे.

Syllabus of Professional work

Course Description:

The Professional Development course is designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them success within the chosen profession.

Teaching methods include reading assignments, lecture, classroom discussion, and simulation exercises. A high emphasis is placed on participation in simulation exercises with subsequent coaching and feedback by both the instructor as well as fellow classmates.

Learning Outcomes:

Students completing course should be able to:

- Communicate effectively and professionally in business situations through writing, speaking, and listening.
- Construct a career development plan (roadmap) that outlines a path to a chosen career by delineating the skills required for the type of job, recognizing individual skill strengths and gaps, and identify activities that can be used to acquire the skills associated with the gaps.
- Explain the value of networking strategies relevant to professional development; apply networking strategies to demonstrate effective networking conversations and written communications.
- Demonstrate the skills needed to create, format and tailor a professional resume.
- Demonstrate understanding of behavioral interview process by preparing interview questions and participating in practice behavioral interviews.

Classroom Procedures and Protocols

Simulations: Students are expected to actively participate in discussions and simulation exercises. They are expected to offer help and support to other students during simulations and to provide useful feedback.

Notebooks: Each student will keep a spiral or softbound notebook or journal in which they will write exercises when asked and keep classroom notes. This notebook will be graded and is intended to be a useful future reference (especially the final exam).

Portfolio: Each student will develop a career portfolio that will include graded writing assigned during the term. The portfolio will include:

- Self Assessment (500-750 words)
- Discipline Assessment (250-375 words)
- Company Analysis (500-625)
- Interview of Business Professional (250-375 words)
- Industry Controversial Issue Analysis (1000-1250 words)
- Career Plan – gap analysis (750-1000 words)
- Cover Letter (250-375 words)
- Resume (250-500 words)

As part of the WIC requirement, you will offer peer reviews of other students' portfolio components. Students then have the opportunity to revise their papers based on this feedback. The peer review is not expected to perform a rewrite of the paper. Rather, the peer review is expected to identify typos, mistakes in grammar, and mistakes in fact/reasoning, as well as offer suggestions for improving the prose and structure of the written assignment. Peer review will be evaluated as a component of the "participation" grade for the course.

For each of the sections of the portfolio must be grammatically correct, free of typos and spelling errors, and properly punctuated. Writing style must be professional using proper language (no slang) and free of wordy or meaningless expressions whose only contribution is to add to the word count. I will be harsh on grading where "bloat" is used rather than meaningful content. Word counts must be within the listed ranges and will be checked.

- Part 1) Self Assessment

  Write a letter to the professor of your course that provides an assessment of your interests, abilities, and values. Clearly comment on *each* of the three topics. The abilities portion must support your claims to any skills or talents with concrete evidence of why you can make such a claim by *giving at least* one example of something that you have done that demonstrates what you claim. More than one example is good. It must be clear why your example links to your claim. For example, if your assessment is that you are creative, it must be clear from you supporting example that creativity was involved. Examples may be drawn from employment experiences, hobbies, school, community service, or life in your home.

  For information regarding the format, content and style of a business letter, please see:

  Online Technical Writing: Business Correspondence: Overview, David A. McMurrey (http://www.io.com/~hcexres/textbook/genlett.html#)

  Word Count: 500-750; Page Count: 2-3

- Part 2) Discipline Assessment

  Write an Executive Summary that provides an assessment of disciplines that fit you using the Discovery tool available through the Career Services Center. Present the output from Discovery plus a commentary on how that Discovery's suggestions compares to your own opinion arrived at via your previously submitted assessment. If Discovery makes no suggestion then pick a discipline or field that fits you through research that you have done and explain why it fits. You may also choose a field that Discovery just did not suggest because you prefer to explore it rather than the Discovery suggestion. You still must use the Discovery tool and present its output. Explain why you chose what you did.

  For information regarding the format, content and style of an executive summary, please see:

  Writing @ CSU, Writing Guides, Writing Executive Summaries (http://writing.colostate.edu/guides/documents/execsum/)

  Word Count 250-375; Page Count: 1- 1½; The print out of Discovery's suggestions does not get included in the word count

- Part 3) Company Analysis

  Prepare a business memorandum that summarizes research you performed on two companies, institutions, or agencies in the field that you chose. Give the name of the company or entity and a profile of its major products or function. Indicate the size of the

organization in dollars and people, and its geographic reach. Comment on the growth potential of the company based on its industry and strengths. Explain why you chose these particular companies. If you use quoted text, including test that is cut and pasted from a web site, you must indicate the source in a footnote. Quoted text does not count towards your word count.

For information regarding the format, content and style of a memorandum, please see:

Writing @ CSU, Writing Guides, Writing Business Memos
(http://writing.colostate.edu/guides/documents/memo/)

Word Count: 500-625; Page Count: 2-3

- Part 4) Interview of Business Professional

  Interview a person working in your chosen field and write a summary of the interview. Include the questions asked and a summary of their responses. Utilize the internet, your career services resource, or other handout material to help design a good interview. This exercise grade will be based on the meaningfulness of the questions, the quality of the information gathered, as well as the quality of the write-up.

  Word Count 250-375; Page Count: 1- 1½;

- Part 5) Industry Controversial Issue Analysis

  You must analyze a controversial issue within your professional field and prepare a position paper. The target audience for your paper is your immediate supervisor who has asked you to research the issue and present a position for the organization. That position paper should:

  a. Define an issue that is relevant within the field you have chosen to pursue for your career.

  b. Provide research on the background of the issue, discussing the merits of each side of the issue. You must summarize information from a minimum of four authoritative sources, providing appropriate references for your sources of information. Two of these sources must be a journal related to the issue and/or the discipline. The other two sources may include newspapers, books, magazines, news portals, databases, online libraries, websites, blogs, etc. Your sources may also include interviews with appropriate individuals from industry.

  c. Provide a conclusion about the issue from the sources of information. Do not just regurgitate the opinions of your sources – analyze the information gathered to form and state your own opinion. However, you opinion should be backed by facts and evidence gathered from your sources. Show how and why you arrived at that opinion based on the information cited.

  d. Potential topics include:

     - Impact of the credit crisis on employment opportunities within your field.
     - Impact of Sarbanes-Oxley on the Accounting profession.
     - How web 2.0 impacts your field.
     - Legal issues related to the use of cell phones and personal email at work.

- Employee benefit issues. For example, can companies require that employees do not smoke – or charge them a higher premium if they do smoke?
- Legal issues related to the employee selection process.
- The role of social networking web sites (MySpace, Facebook) in the workplace. How can they be used to develop professional networks, etc.
- The role of professional certifications within the discipline.

For information regarding the format, content and style of a position paper, please see:

Writing & Learning Center, University of Hawaii – West Oahu, Writing a Position Paper (http://homepages.uhwo.hawaii.edu/~writing/position.htm)

Word Count 1000-1250; Page Count: 4-5;

- Part 6) Gap Analysis

The gap analysis is a critical part of this project and will be graded on thoughtfulness, thoroughness, practicality, and specificity.

Write an analysis of how you will prepare yourself to succeed within this career field. Your analysis should be based on information previously gathered in parts 1 through 5 that define the characteristics important to success within the field. Indicate the qualities that you are trying to acquire or demonstrate that an employer would expect of an entry-level employee. Indicate how your choice of coursework and other activities can prepare you to meet these expectations. For example, employers might seek candidates with the following:

- Leadership experience
- Community involvement
- Campus involvement
- Problem solving skill
- Teamwork skill
- High energy level
- Personal discipline
- Demonstrated interested in, knowledge of, and involvement in the field
- Writing skill
- Initiative
- Speaking and presentation skill
- Sales skill
- Creativity
- Interpersonal skills (i.e. dealing with people)
- Critical thinking skill (the ability to analyze situations and create strategy or solve problems)
- Ability to complete tasks and deliver results

This is only a list of suggestions. You answer could include things like:

- Summer internships
- Work study

- Join a campus professional club
- Work or volunteer for a community organization
- Lead a campus project
- Tutor other students
- Work at the university
- Attend career fairs
- Attend lectures by prominent guests of the university

Be specific. Do not just say "join a club." Which club? Why that club? What companies will you target for an internship? What specific steps will you take to get an internship? When will you launch your search? How will you proceed on your search (use Career Services, etc)? What networking tactics can you use? Explain how what you propose fulfills a specific need. Indicate your planned timing.

Word Count: 750-1000; Page Count: 3-4

- Part 7) Cover Letter

Create a cover letter for a specific job advertisement (part-time, internship, full-time, etc.). The letter should highlight the most important and relevant accomplishments, skills and experience listed in your resume as they relate to the stated qualifications for the position.
